

Networks Progression

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
<ul style="list-style-type: none"> ● I can explain that websites have information on them ● I know that email is similar to sending a letter using a computer ● I know that I can see videos, pictures and text on websites ● I know that there are rules to keep us safe online and offline ● I understand I should be kind online and offline ● I know a trusted adult should know what I am doing online ● I understand that I need to have fun on and offline 	<ul style="list-style-type: none"> ● I can explain the difference between communicating via email and on a website (privacy) ● I can explain that emails can be sent to more than one person at once ● I can explain that computers share information ● I know log in details should only be shared with trusted adults ● I know I should talk to an adult before sharing information about myself ● I know not everything on the Internet is true 	<ul style="list-style-type: none"> ● I can explain that a computer needs to be connected to a network to access it e.g. Ethernet/wifi for the Internet ● I can recognise places where computer networks are used e.g. school file sharing ● I can explain the basis of how wifi works e.g. needs a router ● I can explain the difference between the Internet and a network ● I can explain how a file is saved on a different computer to the one it was created ● I understand the dangers from clicking links I don't know ● I know where and how to report online bullying ● I recognise when it is and isn't appropriate to use technology 	<ul style="list-style-type: none"> ● I can identify the different parts in a network e.g. switch, server ● I know the difference between the Internet and internet services e.g. world wide web ● I can explain how email works ● I can explain the difference between email and chat ● I can explain how a website is retrieved from a web server e.g. a request sent through wires until it finds the right one ● I can explain that information travels through radio waves (wifi) and wires ● I understand that personal information online can be shared ● I can explain what a strong password is 	<ul style="list-style-type: none"> ● I can explain the role of an IP address ● I can explain how a website request is sent from router to router before being found ● I can explain that a webpage is written in HTML ● I can explain the difference between the Internet and a web browser ● I can explain that computers send information in a range of different ways e.g. electrical pulses, sounds, light ● I understand that content shared online is almost impossible to remove ● I understand what Internet trolling is and how to avoid it. ● I understand the concept of a digital footprint 	<ul style="list-style-type: none"> ● I can explain the role of a DNS ● I can explain why computers use binary to send information ● I can explain that the Internet uses packets when sending data ● I know the difference between physical, wireless and mobile networks. ● I can explain why different methods are use to send information ● I can design a webpage and create a basic HTML file ● I am aware of the consequences of too much screen time ● I understand the consequences of a digital footprint as I get older ● I know Internet restrictions might be different on different devices and need to act accordingly

National Curriculum Coverage

KS1

- Use technology purposefully to retrieve digital content
- use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.

KS2

- Understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration
- use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.
